

ABSTRACT AMENDMENT

Please amend the abstract as follows:

The invention relates to a connector (1) for joining two conductors (4, 5),
~~comprising including~~ a first semi-housing (2) and a second semi-housing (3) that
can be moved from a position in which said second semi-housing (3) is in a pre-
locked state with the first semi-housing (2) into a final locked position. The
inventive connector also comprises an electrically conducting clamp (9) which
contacts and interconnects the two conductors (4, 5) in the final locked position.
